ABOUT-US

MSI France is a leading manufacturer of high-quality dental implant systems, committed to innovation, precision, and reliability.

Our implants are engineered with an advanced aggressive geometry design to ensure exceptional primary stability and optimal osseointegration. The surface is treated with SLA (Sandblasted, Large-grit, Acid-etched) technology for improved bone integration and long-term clinical success.

Every component is designed for ease of use, helping clinicians achieve predictable results even in complex cases. Our complete system supports streamlined workflows—from surgery to prosthetics—making modern implantology more efficient and accessible.

MSI France products are manufactured in compliance with strict European CE norms, ISO 9001:2008 and ISO 13485:2003 standards, and are FDA-cleared for the USA.

Based in Paris, we proudly offer full OEM manufacturing capabilities and global distribution, supporting dental professionals with premium quality, technical expertise, and exceptional service.

PROSTHETICS SYSTEM OVERVIEW

SPECIFICATIONS

Our prosthetic solutions are designed with precision, versatility, and simplicity in mind, ensuring consistent results across all clinical situations.

All MSI France prosthetic components feature a unified internal hexagon connection across all implant diameters. This standardization ensures full compatibility throughout our entire implant line, simplifying inventory management and streamlining restorative workflows for our clients.

By using a single connection system, clinicians can confidently plan and deliver treatments with greater efficiency, reducing chair time while maintaining exceptional fit and stability.

Our comprehensive prosthetic line includes abutments for all restorative needs—from standard and angled abutments to multi-unit, ball attachment, and digital CAD/CAM components—delivering flexible solutions to meet any clinical challenge.

STANDARDS STRAIGHT ABUTMENTS

SPECIFICATIONS

Picture	Reference	Description	Matériau	L	D
	MSI - SA7	Titanium Abutment 7 L	Titanium		
	MSI - SA9	Titanium Abutment 9 L	Titanium		
	MSI - SA12	Titanium Abutment 12 L	Titanium

	MSI - SHA4	Shoulder Titanium Abutment 4 L	Titanium		

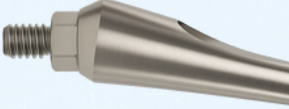

ANGULAR ABUTMENTS 15 degree

SPECIFICATIONS

The world leader in OEM manufacturing of full dental implant and restoration systems according to client specifications

Anatomic Angular Abutment is available in Switch Platform and in heights of 1,2,3,4mm

Picture	Reference	Description	Mat�riel	L	D
	MSI - ANG15	Angulated Titanium Abutment 15 L 9mm	Titanium		
	MSI - ANGL15	Angulated Titanium Abutment 15 L 12mm	Titanium		

Picture	Reference	Description	Mat�riel	L	D
	MSI - ANG15-1	Angulated Shoulder Abutment 15 L 1mm	Titanium		
	MSI - ANG15-2	Angulated Shoulder Abutment 15 L 2mm	Titanium		
	MSI - ANG15-3	Angulated Shoulder Abutment 15 L 3mm	Titanium		
	MSI - ANG15-4	Angulated Shoulder Abutment 15 L 4mm	Titanium		

The lower side is located in the buccal part, ideal for aesthetic solutions

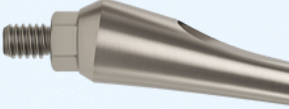

ANGULAR ABUTMENTS 25 degree

SPECIFICATIONS

The world leader in OEM manufacturing of full dental implant and restoration systems according to client specifications

Anatomic Angular Abutment is available in Switch Platform (3.75 mm) and in heights of 1,2,3,4mm

Picture	Reference	Description	Mat�riel	L	D
	MSI - ANG25	Angulated Titanium Abutment 15 L 9mm	Titanium		
	MSI - ANGL25	Angulated Titanium Abutment 15 L 12mm	Titanium

	MSI - ANG25-2	Angulated Titanium Abutment 15 L 2mm	Titanium		
	MSI - ANG25-3	Angulated Titanium Abutment 15 L 3mm	Titanium		
	MSI - ANG25-4	Angulated Titanium Abutment 15 L 4mm	Titanium		

The lower side is located in the buccal part, ideal for aesthetic solutions

HEALING CAP

SPECIFICATIONS

Picture	Reference	Description	Material
	MSI - HC1	Housing for internal Cap Titanium	Titanium
	MSI - HC2	Soft Silicone Cap for Housing	Silicone
	MSI - HC3	Straight Ball Attachment Titanium	Titanium
	MSI - HC4	Straight Ball Attachment Titanium	Titanium
	MSI - HC5	Straight Ball Attachment Titanium	Titanium

Healing caps are available in 3 sizes
Standard, Narrow and Wide

Picture	Reference	Description	Material
	MSI - MH3001	Housing for internal Cap Titanium	Titanium
	MSI - SC001	Soft Silicone Cap for Housing	Silicone
	MSI - BA1201	Straight Ball Attachment Titanium	Titanium
	MSI - BA1202	Straight Ball Attachment Titanium	Titanium
	MSI - BA1203	Straight Ball Attachment Titanium	Titanium

Ball-Attachment

SPECIFICATIONS

Snap structure is connected by a click to the removable denture

The abutment is available in different heights 0.5,1,2,3,4,5,6 mm

Picture	Reference	Description	Material
	MSI – MH3001	Housing for internal Cap Titanium	Titanium
	MSI – SC001	Soft Silicone Cap for Housing	Silicone
	MSI – BA1201	Straight Ball Attachment Titanium	Titanium
	MSI – BA1202	Straight Ball Attachment Titanium	Titanium
	MSI – BA1203	Straight Ball Attachment Titanium	Titanium
	MSI – BA1204	Straight Ball Attachment Titanium	Titanium
	MSI – BA1205	Straight Ball Attachment Titanium	Titanium
	MSI – BA1206	Straight Ball Attachment Titanium	Titanium

The snap abutment is designed with a titanium cap and silicon intermediate cap. It is designed for accurate joining of over-denture implants

MULTI-UNIT

SPECIFICATIONS

Picture	Reference	Description	Material
	MSI - MU1	Multi Unit Straight Titanium Abutment	Titanium
	MSI - MU2	Multi Unit Straight Titanium Abutment	Silicone
	MSI - MU3	Multi Unit Straight Titanium Abutment	Titanium
	MSI - MU4	Multi Unit Straight Titanium Abutment	Titanium
	MSI - MU5	Multi Unit Straight Titanium Abutment	Titanium
	MSI - MUPS	Plastic sleeve for Multi Unit Abutment	Acetal burn-outplastic
	MSI - MUTS	Titanium Sleeve for Multi Unit Abutment	Titanium
	MSI - MUS	Screw for Multi Unit Straight Abutment	Titanium

Multi-unit abutments are designed to support full-arch restorations by ensuring a strong, precise connection

Available in various angles and heights to accommodate different anatomical situations

Compatible with screw-retained bars and bridge

TRANSFERS

SPECIFICATIONS

Made of stainless steel and available for closed and open-tray methods, in short and long sizes

Picture	Reference	Description	Matériau	L	D
	MSI -TRC	Implant transfer 3.75 platform L 7.5 mm	Stainless steel	7.5	4.5
	MSI -TRO	Implant transfer 3.75 platform L 11.5 mm	Stainless steel	11.5	4.5
	MSI -TRK	Implant Clip transfer 3.75 platform L 9 mm	Stainless steel	9	4.5
	MSI -TRKL	Implant Clip transfer 3.75 platform L 13 mm	Stainless steel	13	4.5

ANALOGS

SPECIFICATIONS

Made of stainless steel to allow preparation of lab models. Available in switch platform

Picture	Reference	Description	Material
	MSI - ANS	Implant Analog 3.75 platform	Stainless steel
	MSI - ANN	Implant Analog Wide 5.0 platform	Stainless steel

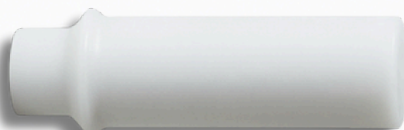

PLASTIC ABUTMENTS

SPECIFICATIONS

Used for laboratory casting procedures to form the final abutment structure. Available in multiple materials.

Picture	Reference	Description	Material
	MSI - PH	Plastic structure for casting with Hex	Delrin
	MSI - PNH	Plastic structure for casting without Hex	Delrin

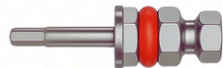

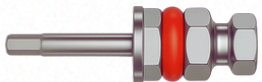

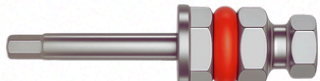

SURGICAL TOOLS

SPECIFICATIONS

Crafted with precision in medical-grade titanium, our hex drivers are engineered for surgical excellence

Made in France

Picture	Reference	Description	Material

DIGITAL 3D

DIGITAL WORKFLOW

Embrace the future of dentistry with our complete digital workflow solutions, designed for seamless integration into modern clinical practice.

MSI France offers precision-engineered components for digital impression taking, scanning, and CAD/CAM prosthetic design.

Our system includes official CAD libraries for major design software, ensuring accurate and efficient planning.

All digital components are based on our patented design geometry, guaranteeing reliable fit and compatibility across our implant line.

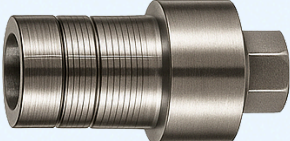

Trust MSI France to deliver a streamlined digital experience that improves efficiency, accuracy, and patient outcomes in restorative treatments.
